100 job descriptions brought to life	BIOLOGIST	15.1

Biologist

Olga: I'm Doctor Franken's assistant. We have a very well equipped
laboratory at the University and that's where I work as a biologist. I help the
doctor in his research by studying with him the characteristics and reactions
of living cells. I also deal with the maintenance and upkeep of the electronic
apparatus and the computer data.

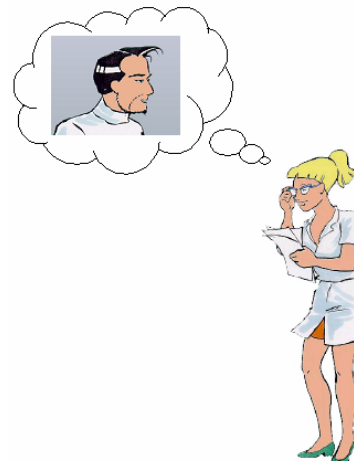

.../...

Before this, after getting my biology degree, I worked in microbiology and bacteriology in a medical laboratory, and then in the pharmaceutical industry. But I am very happy today helping the doctor in his work, as Dr Franken is really a genius, even if not everybody here likes him ...
