**Read the car section of a magazine**

You are thinking of buying a new car and would like some information about the interior comfort of some models.

You buy the magazine “Auto Motor” n°120.

Here is the page that deals with the types of cars you are interested in.

**PEUGEOT 106 XRD**

Relatively spacious inside, with a much better finish than the Peugeot 205, as well as remarkably low noise levels, the 106 is a pleasure to drive. More instruments would have been appreciated, as well a bigger foot-well providing more legroom for tall people.

**FIAT UNO DS**

The less than basic interior trim and the quality of the plastics, the lack of real comfort, very basic equipment and engine vibration on tick-over will put off many buyers. But for an inexpensive car, the inside is spacious and it is very easy to run.

**CITROEN AX CABAN D**

Definite improvement to the interior trim of the new generation AX. Good overall driving position, with foot rest, easy to find controls, plenty of space for storage or luggage and two vanity mirrors: the AX is definitely attractive! One regret: the rear-view mirrors are still difficult to adjust.

**VAUXHALL CORSA BEAUTY 1.5 D**

The lack of comfort takes away all the pleasure of the superb equipment. Even if it tries to stay young with its great instrument panel and attractive pricing, the Corsa suffers from its old design features: rough suspension, limited space and old-fashioned interior fittings.

**RENAULT CLIO RL 1.9 D**

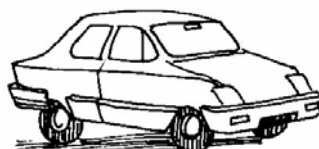

In spite of all its qualities, it is definitely under-equipped. The little Renault is almost totally devoid of trimmings. But it is comfortable and the soundproofing are excellent, which makes up for the rest.
